- Assisted drivers delivering orders to the customers.

General Assistant at Sainsburys PLC, Edinburgh

October 2016 — July 2017

Developed fundamental skills in assisting customers with queries including;

- locating items on the shop floor
- Reducing product pricing
- Identifying poor product quality or shelf life
- Working with team members efficiently
- Ensured customer's overall safety and well being within the store

✎ Extra-curricular activities

DARE Academy at SnakeBride Software, Dundee

June 2022 — September 2022

During the summer of 2022, I participated in the Abertay University DARE Academy game development competition, joining SnakeBride Software as a general programmer/producer and helped the team reach the finals.

As a general programmer, I helped produce;

- Procedural Clouds, Particle Systems, animated and shaded foliage
- Volumetric Lighting and Fog
- Intractable Water Shader

My tasks as a producer included;

- Breaking problems into manageable sub-tasks
- Holding 10-15 minute stand up meetings
- Ensuring everyone on the team were happy and in the development loop

Treasurer at Abertay Game Development Society, Dundee

September 2019 — May 2020

As the treasurer of Abertay's Game Development Society, my responsibility extended beyond maintaining the society's budget and included;

- Ensuring students health and safety during game jam events.
- Volunteering at the Global Game Jam of 2020.
- In addition, my role involved securing guest speakers such as Ninja Kiwi's Executive Vice President, David Hamilton.

★ Additional Skills

Professional Project, Dundee

January 2022 — May 2022

The professional project is a core milestone in the game development courses at the University of Abertay Dundee.

Skills I developed during this time include;

- Organising individual's tasks and identify bottlenecks in the development process.
- Ensuring team members understood agreed upon goals for the week and made sure everyone was listened to
- It was imperative to ensure estimations on complex tasks where procured appropriately and realistically.
